

# London Luton Airport Explained

We appreciate that running three funds for what appears to be the same organisation can be quite confusing.

However, “London Luton Airport Ltd” and “London Luton Airport Operations Ltd” are two different organisations which both ask us to manage some of their support for the local community and voluntary sector.

Both companies have different ideas as to how this charitable support should be directed and community groups may apply under either fund according to the one they think best fits their needs.

## Luton Borough Council

is the sole shareholder of

## London Luton Airport Ltd

which rents the airport to

The Community Foundation manages the “Community Awards Fund” and “Near Neighbours Fund” on their behalf. The funds for this come from rent paid to London Luton Airport Ltd. by London Luton Airport Operations Ltd.

## London Luton Airport Operations Ltd

which operates the airport on a day to day basis and which is owned by a Spanish airport operating company

The Community Foundation manages the “Community Fund” on their behalf. The funds for this come from the Company’s own income.
